GRANTS/FELLOWSHIPS IN RESEARCH

Current Grant Involvement

NICHD 1R21HD097769-01 McDonald (PI) 9/2018-8/2020

Project Title: The Impact of Human-Animal Interaction (HAI) on Adjustment of Children Exposed to Adverse Family Environments.

The goal of this study is two-fold: 1) to develop and pilot a new measure of children's exposure to animal maltreatment and 2) to examine relations between adverse childhood experiences, HAI, and child adjustment.

Role: PI (\$429,067)

Impact Score: 20 | *Percentile:* 4

VCU Presidential Research Quest Fund McDonald (PI) 7/2018-12/2019
Project Title: Companion Animals in the Context of LGBTQ+ Youth Wellbeing.
 The goal of this study is to understand whether and to what extent HAI moderates associations between victimization experiences and mental health in LGBTQ+ youth.
 Role: PI (\$50,000)

Faculty Internal Research Grant, School of Social Work McDonald (PI) 7/2017- 6/2019
Project Title: Advancing measurement in human-animal interactions research: A pilot study to develop a new measure of children's experiences with companion animals.
 The goal of this project is to develop a new measure of children's experiences with companion animals and examine associations between caregivers' treatment of animals, parenting behaviors, and children's treatment of animals.
 Role: PI (\$15,000)

Clark Hill Institute for Positive Youth Development, Faculty Fellowship 9/2017-8/2019
Project Title: Risk and protective effects of human-animal interaction on emotional and behavioral health trajectories of urban youth.
 The goal of this project is to obtain pilot data to inform a longitudinal study examining relations between HAI and emotional and behavioral health among urban youth.
 Role: Clark Hill Institute Fellow (\$10,500)

Pending Grant Applications

WALTHAM™ Human-Animal Interaction Research Programme McDonald (PI) 1/2019-12/2021
Project Title: Longitudinal Relations between Human-Animal Interaction and LGBTQ+ Youth Wellbeing.
 This application seeks funds to collect three waves of follow-up data from a cohort of LGBTQ+ youth to examine longitudinal relations between stressors, human-animal interaction, and youth adjustment.
 Role: PI (\$301,816)

Completed Grant Involvement

VCU Council for Community Engagement McDonald/Corona (co-PIs) 7/2016-6/2017
Project Title: Training Latinx Residents in Mental Health First Aid
 The goal of this project was to empower Latinx community members to reduce stigma and increase knowledge about mental health symptoms and treatment in their community.
 Role: Co-Principal Investigator (\$20,000)

NICHD (R01-HD-66503-4) Ascione/Williams (PIs) 9/2010-6/2016
Project Title: Children exposed to intimate partner violence: Mental health correlates of concomitant exposure to animal abuse
 The goal of this project was to examine the impact of intimate partner violence and concomitant animal cruelty on children's behavioral functioning and treatment of animals.
 Role: Co-Investigator /Project Coordinator (\$1,516,662)

* Fall 2015-2016 data collection funded by Grant 2015-0709 from the American Society for the Prevention of Cruelty to Animals (ASPCA).

Grant Proposals In Preparation

Human Animal Bond Research Initiative (HABRI) McDonald (PI) 7/2018-12/2019

Project Title: Companion Animals in the Context of Transgender and Gender Expansive Youth Wellbeing.

The goal of this study is to understand the role of pets in the coping and resilience processes of transgender and gender expansive youth.

Role: PI (\$59,999 | Invited Resubmission)

NICHD (R01 | PAR-18-212) McDonald (PI) 12/2019-6/2023

Project Title: Bidirectional longitudinal relations between human-animal interaction and socioemotional health in children exposed to adverse family environments.

This application seeks funds to collect three waves of follow-up data on participants in our R21 study (R21 HD097769-01) to examine longitudinal relations between adverse childhood experiences, HAI, and child adjustment.

Role: PI (submission deadline: 3/2019)
